

## 13th December 2010 / Breac Studios / Royal Leamington Spa, UK

Skidders' third single is 'Skidders Dance Mix' released on *Force 8 Records*, 13th December 2010. Composed, produced and recorded by Skidders at *Breac Studios*, in Royal Leamington Spa, UK - the track will feature on his 2011 album '*Skidderslectric*'.

The single is a completely new genre for the Black Country songwriter, producer and guitarist - who is more known for his electric and acoustic, rock & blues compositions, recordings and performances. Skidders described the release:-

"I wanted to try and put together a dance mix, as I continually experiment with different recording techniques for my songwriting. I'd really like DJs, especially those from around the Midlands area, to play this single at their gigs.

"I am writing and recording two new albums for 2011 - one is predominantly electric rock & blues. This single will feature as a bonus track on that album. The other album is all acoustic guitar work, called *Friends & Family*. So it's quite an eclectic mix".

'Skidders Dance Mix' was Sound Engineered by *Force 8 Records*' Paul 'the Ox' Hogg and can be previewed or purchased on iTunes and other online music stores from the release date, 13/11/2010.
